

Share's Requium

I give this horse to Odin's care
Beyond the Bridge of Light.
I send with her a Warrior's Prayer
For the battle she helped me fight.

We drew upon each other's strength
And faced the hurt and pain.
Partners through the darkest times
Sheltering each other from the rain.

All-Father give her rest and joy
To graze the green Summerland.
And maybe when she's had her fill
To ride under a Valkaries hand.

Let the sun shine on her coat
The warmth without the pain.
That she may once again buck and run
Through lovely summer rain.

Know that she was loved while here
Upon the Midgard strand.
And I hope she'll see a friend or two
In the paddock where she'll stand.

I give this mare to Odin's care
And trust he will oblige
To take a loved and trusted friend
And love her as did I.
